

EROSION COMMITTEE MINUTES

NOVEMBER 19, 2013

Present: Marty Schuler, Roz Warner, Terry Holinsky, Dick Hall, Doug Reiff, Ron Myers

The meeting was called to order at 1PM. A motion to accept the October 15, 2013 minutes was made by Dick Hall and seconded by Doug Reiff. The motion was approved. At the last CDD meeting, the Scharr property was discussed and it will be reviewed by Rick Schappacher, Joe Rasset, Eric, and Tyree Brown. A recommendation to the CDD board will follow. The area by the 13th tee box was repaired with fill and seed and now it looks good.

The Phase 4 walk through will take place on Thursday December 5th. Rick (district engineer) will evaluate the 26 homes identified from last year plus the pond by Foggy and Portside. Available committee members will join Rick. It was also suggested that all areas on water be looked at again just to identify any problems.

Rick is currently looking at various methods to solve the Portside/Foggy pond problem. A different method may have to be used from last year's fix. The reason for this is that the pond water level varies greatly from summer to winter. We reviewed photos of the flexomat method used on the Palm Condos in Bradenton. It looks good but is expensive.

Roz was asked if homeowners can purchase plants for their shoreline. Roz will check with aquatic company and advise.

Next meeting- December 17 1PM.Meeting adjourned 1:40PM
