

EROSION COMMITTEE MINUTES  
JUNE 17, 2014

Present: Marty Schuler, Roz Warner, Terry Holinsky, Doug Reiff,  
Ron Myers

The meeting was called to order at 1:10 PM. A motion to accept the May 20, 2014 minutes was made by Roz Warner and seconded by Terry Holinsky. The motion was approved.

Update on this year's project...There have been some delays due to the rain and Bio Mass is now scheduled to complete by July 15. They have brought in over 300 truck loads of fill and over 100 ton of rock for the geo web. There is a small section complete, except for sod, at the end of Portside and it looks great.

All sprinkler heads and drainage pipes will be repaired before the sod is put down. Towards the end of the project, we will have a review with Oscar ((landscaper),Rita(property management),Rick(engineer),Roz(CDD). This review will be on site to insure Bio Mass's job is complete and to the satisfaction of all.

A question was asked if Lake Masters have done any weeding to date. Roz mention that Lake Masters are spraying very carefully for weeds and will check on hand weeding and will advise at our next meeting.

A note was received from resident, Balestra(832 Whooping Crane) regarding erosion on their shoreline. Rick and Marty will review and advise next meeting.

Meeting was adjourned at 1:45 PM ...Next meeting July 15 1pm.  
After the meeting, the committee went to review the site.
