

Landscaping Committee Minutes

October 8, 2013

Present: Roz Warner, Ishrut Batjer

Residents: Peter Smith, Fran Paikoff

Minutes read and approved.

Review of Phases 3 and 4 discussed. Mr. Smith showed new software available which can show our propose landscaping in three dimension instead of just the blueprints. He also thought Escalante might use a similar type of software. (NOTE: I checked with Joe Rassett, GM and he is not aware of any inasmuch as Escalante does not build golf courses). I advised I would forward specifics on this software to our Landscape architect.

We reviewed the current plans for entrance to Sand Crane.

Everyone addressed their concerns on making certain our entrance looks outstanding, even if it means buying more mature trees. Mrs. Paikoff addressed her concerns that she did not feel the trees needed to be removed yet and wants to make certain there is shade.

Mrs. Warner advised she would send out notice to get more volunteers to serve on Landscape Committee.

Meeting adjourned at 2:10

Roz Warner
