

## Landscape Committee Minutes

October 14, 2014

Meeting Called to order at 2 PM.

Present: Roz Warner, Donna Marrs, Phylis Balestra, Mike Forrest (resident)

Minutes from 9/9/14 reviewed and approved.

Discussion of Potato Vine invasion. The Landscape Committee would like to be given prior notice when Ecological Consultants are on site for their quarterly maintenance.

Discussion held on flower beds. Everyone pleased with Jonathan's work. The flowers have flourished under proper planting. Unfortunately I advised them that Jonathan did not yet have worker's compensation insurance and that we could not use him without it. Additional contact will be made with White Diamond to hopefully resolve this. The Marigolds on Rainbow are dead – possibly due to herbicide? Possibly plant additional flowers at this time.

Discussion on Phase 4. The bids from Austin were reviewed. I advised I had asked Austin to meet with me for one more discussion. Also since our Orlanders are really looking bad, want to consider alternate flowering shrub/bush. Possibly Firebush or Ixoras.

Simply Verde is working on her bid for tree removal/replacement as well.

Also when Tyree and Justin do their monthly review, I would like one Landscape Committee member to be present. Both Phylis and Donna would like to do that.

Utilization of the CDD email address was again stressed. Discussion of Sunshine Regulations also discussed.

Meeting adjourned at 3:04.
